In addition, the Cell for Production and Distribution of SLM reviews the functioning of the the SLM department and fixes the delivery timeline for the benefit of the learners. Moreover, in view of the difficulties arising out of the COVID 19 the Cell also decided to send the SLM directly to the learners instead of their LSCs as most of the LSCs were not in operation during that period.</p> <p>The academic services provided by LSCs were monitored by Regional Centre of Jorhat and the Office of the Dean (Study Centre). Besides, with the objective of improving the reciprocal relations between the University and the LSCs the University has involved faculty and employees extensively. Such efforts are expected to improve quality of services provided to the learners by the LSCs.</p> <p>Multimedia Course Material Centre (EMPC) of the University monitored all the activities related to multimedia production materials.</p> <p>As most of the KKHSOU learners are from rural background with limited access to electronic and print media, it provided counselling support to the learners on a regular basis. Counselling support is also provided to the jail inmates who have enrolled in various academic programmes of the University. Counselling through technology</p>	<p>improving reciprocal relations between the University and Study Centre</p> <ul style="list-style-type: none">• Notification of pre and post examination grievances etc.

Accordingly, an exercise was undertaken to present the perspectives in the form of a Strategic Action Plan. A thorough review of the Vision Document 2030 of KKHSOU was made internally and contextualized the same with the New Education Policy, 2020, the NAAC Institutional Manual for Open Universities.</p> <p>During the period CIQA has carried out an internal audit of the audio-video learning materials produced by the EMPC of the University. The Report identified areas which can be further strengthened e.g. use of interactive graphics and animation for engaging learners, improving quality of production, using technologies for producing more on screen interactions with the learners for graded learning etc.</p> <p>During the period CIQA also conducted three rounds of Surveys amongst three of the important stakeholders viz. We can highlight some of them as the following: In all programmes an attempt is made to provide the scenario of Assam in all aspects such as economic, social, cultural, historical, educational, philosophical, and ethical. The basic motto behind the inclusion of such aspects is to make the learners aware of their own region. All the programmes are designed with a view to incorporating the latest knowledge from every field. Hence, the syllabi are revised and updated time-to time to acquaint the learners with the current topics and areas of learning. Besides, wherever there is a scope, the University has offered its learners the scope to engage themselves with the community while undertaking activities like field work, project work etc. Programmes have been designed to meet the educational and skill development needs of the learners. In planning the curriculum, while global pace and UGC's norms are kept in focus, KKHSOU gives prime importance in the regional needs of the people within its jurisdiction. Through education, research, training and extension, KKHSOU strives to play a positive role in the development of the region in general, and the development of the deprived and underprivileged sections of the society in particular. All the programmes offered by KKHSOU have some common characteristics which are reflected in all courses right from the Certificate to Master's degree where it is clearly stated that besides providing knowledge to learners on different national and global aspects, the University has also taken particular account of the regional aspects. We can highlight some of them as the following: In all programmes an attempt is made to provide the scenario of Assam in all aspects such as economic, social, cultural, historical, educational, philosophical, and ethical. The basic motto behind the inclusion of such aspects is to make the learners aware of their own region. All the programmes are designed with a view to incorporating the latest knowledge from every field. Hence, the syllabi are revised and updated time-to time to acquaint the learners with the current topics and areas of learning. Besides, wherever there is a scope, the University has offered its learners the scope to engage themselves with the community while undertaking activities like field work, project work etc. Programmes have been designed to meet the educational and skill development needs of the learners. While developing the programmes the University has taken into account that besides acquiring knowledge, all programmes provide scope for livelihood for every learner. All the academic

programmes are duly approved by the apex and statutory bodies. The UG and PG programmes have been launched according to the approval of DEB/UGC and the Certificate/Diploma programmes are approved by the Academic Council and BoM, KKHSOU.

5.2 Compliance status of ‘Quality Assurance Guidelines of Learning Material In Multiple Media And Curriculum And Pedagogy’ – As per Annexure - VI of UGC(ODL Programmes and Online Programmes)Regulations,2020

HEI shall mention compliance details against the requirements in terms of learning material (Print Media), Audio-Video Material, Online Material, Computer-based material and Curriculum and Pedagogy, as mentioned in the Annexure-VI of the Regulations for ODL programmes.

KKHSOU prepared quality Self Learning Materials (SLM) using best resources of the Country. Self-Learning Materials (SLMs) are prepared through an organized system of course material development. SLMs are available both in print and e-format which are further supported by audio-visual resources to promote an individualized, creative and dynamic learning eco-system. The SLMs of various programmes are provided in the local languages i.e., Assamese, Bangla and Bodo. SLMs in Braille and audio format also prepared. The learners are provided with SLMs in both print and digital format. Digital SLMs are provided to the learners through the Learners’ Portal.

e-Bidya LMS: Initially, all e-SLMs were provided in PDF/HTML format through e-Bidya portal. Now this portal has been updated to Learning Management System (LMS) by using popular open source software Moodle which can be accessed via <https://ebidya.kkhsou.ac.in/> where audio visual material, discussion forum, online chat along with study material has been uploaded.

While developing the e-SLM, audio-visual material, the print SLMs are considered as the base material. With the facilities available in the Multimedia Studio of the University, the University faculty members have developed video classes which are uploaded on YouTube and University website. Regarding curriculum and pedagogy, the University is guided by the PPR and specified credit structure. While developing the audiovisual material, the University ensures that synchronization of sound and image, appropriate graphics and animation relevant to the course content, and appropriate visual texture and related images are incorporated.

5.3 Compliance status in respect of Self-Learning Material– As per Annexure – VII of UGC (ODL Programmes and Online Programmes) Regulations, 2020

HEI shall mention the process followed to ensure that SLMs are prepared as per the guidelines mentioned in the Regulations. The explicit details of approval by its Statutory Authorities shall also be mentioned.

The most dynamic aspect of the SLMs in Print form KKHSOU is that these are prepared and produced in both English and Assamese medium. The SLMs for both theory and practical components are supplied to the learners. The syllabi of different programmes have been prepared and upgraded as per the recommendations by the statutory bodies such as University Grants Commission/Madhava Menon Committee and so on.

Process of developing Self Learning Materials: At KKHSOU, the different Schools of Studies initiate, conceptualise, design and develop the academic programmes of the University. The programmes are developed and prepared, following the established norms and procedures, by the in-house faculty members in collaboration with the eminent subject experts. The detailed proposed programme (i.e., the duration of the programme, the learning outcome, the programme structure, target group of learners, eligibility criteria, medium of instruction, credit weightage etc.) in accordance with the course structure recommended by the School of Studies is placed before the Academic Council (AC) for approval of the same. Subsequently, the schedule for programme development is fixed and the in-house faculties are assigned the responsibility to coordinate and manage the various courses of the programme within stipulated time. The course coordinator prepares a list of potential content writers, editors and translators for developing the courses. This list is placed before the respective School of Studies. Thereafter, the recommendation of the School of Studies are placed before the AC for approval. The AC allocates the Programme Code, Course Code for each programme.

Instructional Design of SLM at KKHSOU: Each programme offered by the University contains a number of courses as decided by the School of Studies. SLMs are prepared for each course following an Institutional House Style. Each course is divided into Blocks and majority of the courses have two or three blocks. Each block contains minimum 6-8 units or 4-6 units. A unit consists of minimum 3500-5000 words or 12-15 pages. Each unit is structured based on the principles of the Instructional Design which is based on the House-Style developed by the university. Each unit contains: Introduction, Learning Objectives, Presentation of the Sections, Check Your Progress, Activity, Let Us Sum Up, Further Reading, Answers to Check Your Progress and Model/Possible Questions.

Type of HEI: Open University

The SLMs of the university undergo three types of editing: Language editing, Content editing and Format editing. The Content and Language editing are done by the external subject experts and Format editing is done by the in-house faculty members.

Credit System: While preparing the SLMs, KKHSOU follows the UGC Regulations passed from time to time. Currently, KKHSOU is following all the rules and regulations related to SLM development as suggested by the UGC (ODL) Regulations, 2017. In terms of study hours, one credit is equivalent to 30 hours of study. All the programmes are assigned credit weightages as follows:

Master Degree Programme: 64-72 credits

Degree Programme: 96-100 credits

Diploma Programme: 36-40 credits

Certificate Programme: 16-18 credits

At the end of last block of a course, a feedback form is attached to obtain the feedback from the learners on the SLM. Capacity building of Content writers, Content editors and Translators KKHSOU organizes workshops, training programmes for content writers, content editors and translators for their capacity building from time to time. The training and workshops are conducted to familiarize them on the development and preparation of SLMs. Experts from IGNOU, CEMCA as well as in house experts are invited as resource person to such programme.

Institutional Arrangement/Structure for development of SLM:

SLM Production and Distribution Cell: This cell comprises the Finance Officer (as Chairperson), the Deputy Registrar (Academic) as member and Assistant Registrar (SLM) as Convener. This cell has been entrusted with the responsibility of production and distribution of SLMs. KKHSOU has empanelled printing presses which print SLMs in black and white. The different Disciplines prepare the Camera-Ready Copies (CRCs) and get its SLMs printed. Soon after the enrolment process of learners is completed, the SLMs are distributed to each learner for the courses in which he/she has enrolled.

Role of Dean (Academic): The Dean (Academic) deals with the planning of new Programmes. He/she gives relevant information and assists the different Schools of KKHSOU in developing their proposals.

Role of School of Studies and Disciplines: The School of Studies and Disciplines of different subjects are the basic academic units responsible for the conceptualisation, design and development of academic programmes. The Courses of the Programmes are designed by the concerned Disciplines as per the House-Style of the University. The schedule for the development of the Courses is done according to the Academic Calendar of the University.

Role of Course Coordinator: The Course Coordinator manages the whole developmental process of the course. The coordinator constitutes the SLM preparation

team in consultation with other faculty members of the Discipline. The SLM preparation team includes subject experts, content writers, content editors, language editors, format editor and translator (in case of bi-lingual SLM). The course coordinator ensures that the units are prepared on time and each member of the SLM preparation team adheres to the dates decided. Web Link of the Document of SELF

6.2 Compliance status of ‘Learner Support Centre’– As per Annexure–VIII of UGC (ODL Programmes and Online Programmes) Regulations, 2020

HEI shall mention the process followed for identification of LSCs and the agreement terms for providing support to the learners thereby ensuring compliance to the LSCs provisions of the Regulations. The explicit details of approval by its Statutory Authorities/CIQA shall also be mentioned.

KKHSOU has proper guidelines on the functioning of the Study Centres regarding how to conduct counselling session, the qualifications of the

Network of Study and Examination Centres:

The University has made special efforts to reach the underserved areas through a network of study and examination centres catering to the requirement of the learners. Nearly half of the study centres cater to the needs of these areas—study centres in hills (2%), tea garden (11%), border (7%) and riverine (char) areas (27%). Efforts are also made to equip these centres by providing computers and audio-visual aids to make learning more accessible to the learners. The university has been successful in incorporating learners (56% of the total enrolment) from various disadvantaged groups such as ST/SC/OBC/Tea Tribe. Besides, 40% of the total enrolment is women, which is an important fact to be considered in the context of whole North East India where KKHSOU is the first and only state open university.

Management of Study Centres: The office of the Dean (Study Centre) manages the affairs of the study centres. In order to decentralise the management of the study centres, the University has established Regional Centres. For making the study centres effective places of learning, provisions of all relevant services including counselling, audio-visual facilities, personal contact programmes etc. are made at the study centres by the University. This is accomplished through a participatory management process involving the host institutions, coordinators and learners.

The e-learning portal—e-Bidya serves as the repository of all digital resources and the dynamic and resourceful website offers facilities of online admission, payments etc. so that learners can be reached anywhere in the State. The KKHSOU android App developed by the University takes this effort a step further.

10.2 Best Practices of the HEI:

As an alternative to regular offline examinations, a pilot project for online proctored examination using internet connectivity was run in the month of May 2021 with the learners of undergraduate 3rd semester learners. A notification for the Mock Test was published on 19th May, 2022 and the first Mock Test was conducted on 30th May, 2022. Around three thousand learners registered for the pilot which was run successfully.

(2) Jnan Taranga- the Community Radio Station (CRS) has a broadcast reach of 30 Km radius, but the learners' community are located across the state of Assam. To extend the reach of the CRS, it is made available over internet using a global audio streaming platform 'I-Radiolive' so that the programme can be accessed from anywhere in India using internet connected devices. The CRS now receives more feedback and queries from learners than before owing to ease of access and wider reach.
