Important general information to the Study Centres

For facilitating the smooth conduct of the academic programmes in a Study Centre, it is decided that Faculty Members should also lend helping hand to the Dean (Study Centre) in monitoring and supervision of the functioning of the Study Centres. Accordingly, Study Centres have been grouped and allocated to the faculty members as shown in the enclosed list. This is an additional responsibility that a member of the faculty is expected to discharge with pleasure.

Illustrative assigned responsibility of a faculty member :

- 1 To collect the record of the counselling classes monthly from the Study Centres assigned to him/her for information to the Dean (Study Centre) periodically.
- 2 To reply on any query on academic matter from his/ her own or by collecting information from the appropriate person at the earliest.
- 3 To periodically collect the list of the counsellors and critically examine their ability based on his/ her own information /feedback.
- 4 May occasionally call for the list of invigilators rendering services during examination at the Study Centres and critically examine the same.
- 5 Will periodically monitor the enrolment of learners in different programmes in the assigned Study Centres, may track the drop outs for valuable feedback to the University.
- 6 May constantly discuss any other matter with Dean (Study Centre) or any other officer of the University he/she may found appropriate.

Responsibilities of the Study Centres

- 1 Provide necessary information on above as and when required as it will ease the burden on them.
- 2 Should any confusion or ambiguity on any academic matter arise the same should be brought to the notice of the concerning member of the faculty for resolution and updation where necessary.
- 3 Any other issue that a Study Centre may like to discuss.

(Dibyajyoti Mahanta)

N.B:

- 1) This is not to suggest that the Centre in-charge/ Co-ordinator should not discuss any issue or problem with other University officers/ functionaries. This is only an arrangement for sustaining correspondence and follows up.
- 2) The list of the Study Centres associated with respective members of the faculty is attached here with.
