Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Online

Brief describe the provision in LMS to be used by HEI :-

The University utilizes a Moodle-based Learning Management System (LMS) for online programme delivery, learner engagement, academic communication, e-content dissemination, video lecture streaming through Vimeo API through Moodle, discussion forums, assignment submission, quizzes, attendance monitoring, learner analytics, notifications, and academic support services. The LMS facilitates a structured teaching-learning ecosystem with secure digital record management, ensuring compliance with UGC (ODL & Online) Regulations and adherence to the provisions of The Digital Personal Data Protection Act, 2023 (DPDP Act).

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-

<https://kkhsouonline.in/lms/login/index.php>

Assessment mechanism	The Moodle LMS is primarily utilized for Continuous/Formative Assessment activities including assignments, quizzes, discussion forum participation, case studies, presentations, and project submissions. Faculty members evaluate learner performance and maintain assessment records digitally through the LMS. Summative/End Semester Examinations are conducted separately by the University Examination Branch in accordance with the provisions of the UGC (Open and Distance Learning Programmes and Online Programmes) Regulations, 2020, particularly Regulation 15 relating to Evaluation and Examination and Regulation 2(y) relating to Proctored Examination, under secure proctored conditions through physical and/or approved online examination systems.
Identified technological interface and interoperability	The University's Application Portal and Moodle-based Learning Management System (LMS) are designed to ensure interoperability, scalability, security, and compliance with UGC-DEB requirements for Online Programmes. The system supports REST API-based integration with online admission systems, examination management systems, learner databases, digital payment gateways, learner analytics, and student support services. The LMS supports SCORM-compliant digital learning resources for standardized e-content delivery and multimedia integration, along with integration of ABC ID, DEB ID, learner authentication mechanisms, and video conferencing platforms for synchronous learning activities. The integrated digital ecosystem facilitates secure academic administration, learner tracking, attendance monitoring, online assessment support, reporting, and digital record maintenance while ensuring seamless academic workflow management, secure learner data handling, and compliance with UGC (ODL & Online) Regulations and the provisions of the Digital Personal Data Protection Act, 2023.

Learner's Authentication Requirements	The University shall implement a secure Learner Authentication System integrated with the online admission portal, Moodle-based LMS, and examination systems in compliance with UGC (ODL & Online) Regulations. Learner authentication shall be carried out through unique login credentials issued after verification of ABC ID, DEB ID, registered mobile number, email ID, and other prescribed documents. The system supports secure login access, OTP-based verification, encrypted credential management, activity logging, and role-based access control for ensuring authenticity and security of learner activities. The LMS maintains digital records relating to learner login history, attendance, course participation, assessment submissions, and examination access. For examination purposes, additional authentication mechanisms such as Government ID verification, biometric verification, facial recognition, AI-enabled authentication, and proctored examination systems may be implemented as per University Examination Policy and UGC Regulation 2(y) relating to Proctored Examinations. The system also ensures cybersecurity, secure data storage, and audit trail maintenance.
Learner Registration - through a web application	Learner registration is conducted through a secure web-based online admission portal integrated with the Moodle LMS in accordance with the prescribed admission workflow and UGC-DEB requirements. Applicants submit online applications using ABC ID, upload required documents digitally, complete admission fee payment through the integrated CCAvenue payment gateway and undergo verification and registration processes including DEB ID integration wherever applicable. Upon successful admission confirmation and verification, learners are provided authenticated LMS login credentials for access to academic resources automatically, learner support services, assessments, and online learning activities.
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	The Moodle-based LMS ensures active learner engagement through live online classes, discussion forums, assignments, quizzes, mentor-mentee interaction, feedback mechanisms, collaborative learning activities, and continuous academic communication. The system incorporates built-in learner analytics and reporting tools to monitor login frequency, time spent on the platform, content access patterns, attendance in online sessions, assignment submission status, participation in learning activities, course progression, and assessment performance. The LMS maintains digital engagement records and supports monitoring of the minimum 75% learner participation requirement as prescribed under UGC (ODL & Online) Regulations for eligibility and academic progression. Academic administrators and faculty members can generate analytical reports for continuous learner monitoring, academic intervention, quality assurance, and regulatory compliance purposes
Payment Gateway –using Digital Payment system	The University utilizes secure digital payment gateway systems, including CCAvenue, integrated with the online admission and learner management ecosystem for collection of admission fees, examination fees, and other prescribed academic payments. The system supports secure online transactions, automated payment confirmation, transaction tracking, digital receipt generation, and reconciliation processes, ensuring transparency, data security, and seamless financial transactions in compliance with institutional and regulatory requirements.
Tracking the delivery of a Course or programme	The Moodle-based LMS provides comprehensive mechanisms for tracking the delivery and progression of courses and programmes in accordance with UGC (ODL & Online) guidelines. The system monitors learner participation through login activity, time spent on the platform, attendance in live sessions, access to e-content, assignment submissions, quiz participation, discussion forum engagement, and course completion status. Faculty members and academic administrators can monitor academic delivery, learner progression, content dissemination, and engagement levels through centralized dashboards, learner analytics, and automated reporting tools. The LMS also maintains digital records of teaching-learning activities, learner participation, and academic interactions for quality assurance, academic monitoring, regulatory compliance, and verification of the prescribed learner engagement requirements.
Technical Know-how or Skills Requirements	Learners and faculty members are required to possess basic digital literacy and ICT skills including internet usage, LMS navigation, online communication, participation in virtual classes, document upload/download, and use of online assessment tools. To facilitate smooth access and participation, the University shall provide comprehensive learner support through video-based tutorials, user manuals, FAQs, step-by-step guidance documents, orientation programmes, and technical helpdesk support. Guidance related to admission, LMS usage, assignment submission, examination processes, payment procedures, and other academic activities shall be made available through the LMS and online support systems to ensure ease of access and effective participation in online learning activities.

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

The University has established robust ICT-enabled infrastructure for implementation of Online Programmes, including Moodle-based LMS, dedicated servers, high-speed internet connectivity, secure digital storage, learner authentication systems, online admission systems, CCAvenue payment gateway integration, learner analytics, multimedia content development facilities, online teaching-learning tools, examination support systems, cybersecurity mechanisms, data backup facilities, and technical support services. University has its dedicated Electronic Media Production Centre and Video Streaming Server Vimeo. The University also operates EDPS facilities for result processing and NAD integration for academic record management in its ODL programmes, with infrastructure capacity to support more than 1.5 lakh learners. Existing ICT resources have additionally been provisioned for implementation of Online Degree Programmes. The University has a dedicated IT Cell functioning under the supervision of the System Analyst and also utilizes SAMARTH ERP systems, Microsoft Azure cloud services, and Google Workspace/email services for secure and scalable digital academic administration.
